VICTORIA INDUSTRIAL MARKET OVERVIEW

The Greater Victoria industrial sector remains strong and critically under-supplied with a low vacancy rate of 1.1% as demand outpaces supply. Limited supply continues to place upward pressure on rental rates and industrial strata pricing in the Greater Victoria market. The region has one of the lowest vacancy rates and highest average asking rents in Canada. There is a shift in demand for owner occupiers and investors to invest in new product with better specifications as businesses adapt to post pandemic business models versus older product.

THE ROAD TO OWNERSHIP

Beedie will be there to help you every step of the way. You will be given regular property updates as the project moves through construction and the opportunity to tour the property as many times as needed before the purchase is finalized.

As you navigate through the purchasing process, Beedie will provide ample guidance and allow plenty of time to finalize financing arrangements and coordinate with legal counsel to allow you to take ownership of your strata unit. At the end of the transaction, Beedie will walk you through your unit before handing over the keys to your business' new home.

Rest assured, the support does not end there. The asset will be managed by an experienced licensed property manager, who will work in conjunction with Beedie's development team to help you navigate through the Strata Corporation's approvals for your office improvements and corporate signage installation. After move-in, the property manager will then ensure the property is well-maintained and will take care of the day-to-day management of the development leaving you free to focus on your business.

EXPECT MORE FROM YOUR BEEDIE INDUSTRIAL STRATA UNIT

As a leading industrial developer with a 65+ year history in Western Canada having completed more than 35 million square feet of new development, Beedie is excited to continue its growth into the Greater Victoria area with Pacific Ridge. Their industrial strata ownership model is well regarded and in high demand across British Columbia, Alberta, and Ontario. Having successfully completed more than 50 industrial strata projects, Beedie has a long track record of award-winning developments and very satisfied clients.

For small to medium-sized businesses, strata ownership provides the opportunity to own commercial real estate in a professionally managed development. This allows for excellent maintenance of the real estate asset and carefree ownership for the operating business while building equity.

From the selection of the site location to the completed development, every aspect is carefully considered. Beedie projects are designed and constructed to provide owners with high-quality, efficient, well-thought-out units.

Over the past decade, Beedie has worked with local businesses and watched them grow – from being tenants, to purchasing their first strata unit, to owning multiple strata units and eventually, developing custom built-to-suit facilities. This is one of many reasons why Beedie is committed to the industrial strata program and developing these state-of-the-art projects across Canada.
