WHY INVEST IN METRO VANCOUVER'S FUTURE AS CANADA'S ECONOMIC POWERHOUSE?

Vancouver has experienced strong economic growth, contributing 7.6% of Canada's total GDP in 2024. Sustained population increases in recent years has solidified the region's position as Canada's third-largest metropolitan.

Strong employment growth and robust consumer spending continue to drive Vancouver's economy.

As of Q3 2025, industrial vacancy rates remain among the lowest of major Canadian markets at just 4.0%. Average asking lease rates for industrial space are the highest across Canada, a reflection of the scarcity of suitable space and the strong demand to own industrial space.

Vancouver is home to Canada's largest port, serving as Canada's premier international gateway for transportation, distribution, and global trade. Westpointe Business Centre is ideally situated to capitalize upon the many positive economic trends impacting the region.
